Next-Level Sublimation Starts Here

The Mimaki TS200-1600 is a next-generation 64-inch sublimation transfer printer that combines advanced imaging performance with ease of use. Built with the signature 330-series engine and a single high-density printhead, it delivers vivid, high-resolution output for textiles, sportswear, and interior applications. The TS200-1600 can be configured as a dual reservoir, 4-color ink set – or in an 8-color configuration, including orange, violet, fluorescent yellow, and fluorescent pink to offer enhanced vibrancy and creative flexibility. Designed for efficiency, the TS200-1600 features remote access capabilities, intuitive software, and maintenance-friendly design, making it ideal for high-volume, production-focused environments.

– Achieves fine detail and solid color coverage with high ink density and 4pl minimum drop size.

– 22% Larger 8c color gamut with new Violet & Orange inks, plus Fluorescent Pink & Yellow inks for additional visual impact.

– Reaches speeds up to 753.5 sqft/hr while maintaining excellent image quality and saturation.

– PICT Cloud-based data insights tracks and reports device operating status, metrics and ink consumption via computer, smartphone or tablet.

– Mimaki Remote Access (MRA) enables real-time operation and status checks from across a local Wi-Fi connection.

– In-RIP ink saving features reduce ink costs by as much as 50% depending on selected level.

– Includes automatic nozzle replacement, 2-Liter eco ink packs, and sensor based dot position adjustment and feed settings for no-hassle media setup.

For best results, always use Mimaki original inks.
